PROFESSIONAL SUMMARY

I am a detail-oriented AI Data Specialist and Information Technology graduate with experience in AI and Machine Learning projects involving data annotation, dataset validation, content evaluation, quality assurance, and AI model improvement.

Skilled in image, text, video, and multimodal data labeling, AI response evaluation, quality review, and providing structured feedback to improve Large Language Models (LLMs). Strong analytical thinker with excellent communication skills, attention to detail, and the ability to work independently in remote environments.

CORE COMPETENCIES

Artificial Intelligence & Data Operations

- AI Data Annotation
- LLM Evaluation
- AI Response Rating
- Prompt Analysis
- AI Quality Assurance
- Human Feedback Collection
- Dataset Validation
- Reinforcement Learning from Human Feedback (RLHF)
- Content Review & Moderation
- Multimodal Data Annotation

Technical Skills

- Python
- HTML5
- CSS3
- JavaScript
- PHP
- Microsoft Excel
- Google Sheets
- Data Analysis

Professional Skills

- Critical Thinking & Problem Solving
 - Research & Analytical Skills
 - Communication & Team Collaboration
 - Time Management
 - Documentation & Report Writing
-

PROFESSIONAL EXPERIENCE

AI Data Annotator | iMerit

- Annotated and validated image, text, and video datasets for AI and machine learning projects.
 - Conducted quality assurance checks and ensured compliance with project guidelines.
 - Collaborated with teams to maintain dataset consistency while meeting productivity and quality targets.
-

AI Data Annotator | Sama

- Performed image and video annotation for AI training datasets.
 - Categorized and labeled data according to project requirements.
 - Evaluated dataset quality, corrected inconsistencies, and maintained high annotation accuracy.
-

AI Data Contributor | Remotasks

- Supported machine learning projects through data labeling, classification, and verification.
 - Reviewed completed tasks for accuracy and consistency.
 - Contributed to AI training datasets across multiple domains.
-

PROJECT EXPERIENCE

AI Response Evaluation

- Evaluated AI-generated responses for relevance, accuracy, safety, and usefulness.
- Compared multiple AI outputs and selected the highest-quality response.
- Provided written feedback to improve model performance.

Skills Used

- Prompt Evaluation
 - AI Quality Review
 - Critical Reasoning
 - Language Assessment
-

Data Annotation & Validation

- Annotated image, text, and video datasets.
- Performed quality reviews to identify annotation errors.
- Improved consistency of labeled datasets.

Skills Used

- Data Labeling
 - Dataset Validation
 - Quality Assurance
-

EDUCATION

Bachelor of Science in Information Technology

University of Nairobi

TECHNICAL TOOLS

- Microsoft Office Suite (Excel, Word, PowerPoint)
 - Google Sheets
 - GitHub
 - AI Annotation Platforms
 - Data Labeling Tools
 - Remote Collaboration Tools
 - Online Research Tools
-

LANGUAGES

- English – Advance Proficiency
 - Swahili – Native /Fluent
-

PROFESSIONAL STRENGTHS

- Attention to Detail
 - Analytical Thinking
 - Accuracy & Consistency
 - Fast Learner
 - Independent Worker
 - Written Communication
 - Reliable & Adaptable
-
